

UPDATES

Date: Updated 10/20/24

In keeping with its philosophy of offering a program of the highest quality, MTSA continually evaluates its educational program via its institutional effectiveness process and reserves the right to make changes in the policies, curriculum, or practicum at any time including any fees or costs related to these changes.

The MTSA Student Handbook is updated annually. However, items in the handbook may change between publications. Such changes are expected to be minimal. Students will receive notification of these changes and are expected to abide by them.

This page includes changes made after the current version of the handbook was initially published.

DATE	TITLE	CHANGE MADE	APPLIED TO COHORT
This column includes the date change(s) made/ approved	This column includes the name of the policy/handbook section that was changed, with a link to it	This column includes a brief description of what change(s) was (were) made	This column includes the cohorts to which the change(s) will be applied.
